

Public Hearing Set for New Minimal Producers Program to Ensure Water Sustainability

A new ordinance affecting future small water users in the Mojave Basin Area who pump 10 acre-feet or less of water per year will be discussed at the Mojave Water Agency Board of Directors meeting April 14, 2022, at 9:30 a.m.

The ordinance will annually enact a variable rate charge for one (1) acre-foot of water for those pumping 10 acre-feet or less. The charge will affect newly permitted wells starting July 1, 2022 and after. The fee is a water charge and not a parcel charge and will be collected as part of the annual county property tax on real property.

The meeting will be held at the Mojave Water Agency offices located at 13846 Conference Center Drive in Apple Valley.
