

# Mojave Integrated Regional Water Management Plan

## Project Identification - Short Form

Note: This two page project identification short form gathers the minimum amount of information required to submit a project for consideration in the IRWM Plan. More information may be required at a later date. This form should be submitted via email or mail BY **September 12, 2013** to [comments@mywaterplan.com](mailto:comments@mywaterplan.com).

<b>General Information (Required)</b>			
Project Name:	Revised Project 62 Water Conservation Ordinance		
Project Sponsor:			
If Joint Project, Other Partners:	MWA, San Bernardino County, Stakeholders and possibly Mojave Desert Recourse Conservation District		
Project Website (if available):	None		
Project Contact Person:	Phone	FAX	Email
Jim, Ellen Johnson	760 257 3299		<a href="mailto:Jimel1983@gmail.com">Jimel1983@gmail.com</a>
<b>Project Description</b>			
Project Type (e.g. Conceptual, Design, Feasibility Study, Implementable Project, Implementable Program)			
Possibly all of the above?			
Project Description (1-2 sentences):			
A water conservation ordinance in the unincorporated areas of San Bernardino County, within the MWA Jurisdictional Boundary. The MWA has said that the Judgment alone may not be adequate to address all of the water conservation measures that need to be taken to balance water supply and demands in the Baja Subarea. At a Silver Valley Farm Bureau meeting stakeholders were approached about signing into the stipulated agreement. At that time County Ordinance 810.0605-810.0610 was referred to, to be our protection against unauthorized production. This ordinance was removed in 2007. A new ordinance could help to insure an equitable share of the benefits made possible by the Physical Solution.			
Project Integration (Describe how the project does or could integrate with other projects in the Region):			
A water conservation ordinance that could help with the Injunction Against Unauthorized Production (Judgment After Trial), and to help water users within each hydrological subarea to proceed with an orderly water resource planning and development. Project could integrate with Projects 1, 10, 11, 20, 46, and 71			
Project Source (Cite Plan(s) to which the project belongs [e.g., Watershed Master Plans, Capital Improvement Plans]):			
MWA, S.B. County and Stakeholders			
<b>Project Location</b>			
Descriptive (Description of property location etc.):			
Unincorporated areas in the S.B. County within MWA's jurisdiction			
Latitude/Longitude - info available at: <a href="http://geocoder.us/">http://geocoder.us/</a>	Lat:		Long:
Estimated Capital Costs: (Note estimated cost, if known OR check rough estimate):			
Estimated Cost:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	<\$100K	\$100K - \$1M	\$1M - \$10M	>\$10M
Project Status (Check all that apply):	<input type="checkbox"/> Conceptual	<input type="checkbox"/> In-Design	<input type="checkbox"/> Ready to Implement	<input type="checkbox"/> CEQA Complete <input type="checkbox"/> N/A
Estimated Year of Completion:				
<b>Project Benefits</b>				
Water Demand: <i>Water Savings/Demand Reduction (AFY)</i> (Check one)	<input type="checkbox"/> 1-100 AF	<input type="checkbox"/> 100-1000AF	<input type="checkbox"/> 1000+ AF	
Water Supply: <i>New Supply Created (AFY)</i> (Check one)	<input type="checkbox"/> 1-100 AF	<input type="checkbox"/> 100-1000AF	<input type="checkbox"/> 1000+ AF	
Recycled Water: <i>New RW Supply created (AFY)</i> (Check one)	<input type="checkbox"/> 1-100 AF	<input type="checkbox"/> 100-1000AF	<input type="checkbox"/> 1000+ AF	
Groundwater: <i>Reduction in overdraft/increase in recharge (AFY)</i> (Check one)	<input type="checkbox"/> 1-100 AF	<input type="checkbox"/> 100-1000AF	<input type="checkbox"/> 1000+ AF	
DACs Involvement	Y/N:			
Public Access, Open Space, Habitat, Recreation ( <i>acres created/restored</i> ):				
Stormwater:	<i>Reduction in Flood Damage (Y/N):</i>		<i>Multi-benefit Y/N:</i>	
Multi-stakeholder project/regional collaboration	Y/N:			
Climate Change:	<i>Helps assess potential impacts (Y/N):</i>			
Environmental Stewardship/Public Awareness	<i>Direct Benefits:</i>			
Other: ( <i>Describe X amount of benefit</i> )				
<b>Project Criteria</b>				
Please review the project against the IRWM Plan Objectives, Statewide Priorities, Program Preferences, and California Water Plan Resource Management Strategies and place a check in the box if the project meets the criteria.				
<b>IRWM Plan Objectives Met</b>				
Prim.	Second.			
<input checked="" type="checkbox"/>	<input type="checkbox"/>	1. Balance average annual future water demands with available future supplies to ensure sustainability throughout the Region between now and the 2035 planning horizon and beyond.		
<input checked="" type="checkbox"/>	<input type="checkbox"/>	3. Maintain stability in previously overdrafted groundwater basins and reduce overdraft in groundwater basins experiencing ongoing water table declines.		
<input type="checkbox"/>	<input checked="" type="checkbox"/>	7. Provide support and assistance to Disadvantaged Communities and help facilitate projects and programs that benefit those communities.		
<input checked="" type="checkbox"/>	<input type="checkbox"/>	8. Protect and restore sensitive environmental areas in coordination with land use and conservation plans to support stewardship and awareness of environmental resources.		

<input type="checkbox"/>	<input checked="" type="checkbox"/>	9. Improve stormwater management throughout the Plan area.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	2. Continue improving regional water use efficiency by implementing a portfolio of conservation actions that are regionally cost-effective.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	10. Preserve local beneficial uses as it relates to water quality of water supplied by each source, including groundwater, stormwater, surface water, imported water, and recycled water.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	11. Obtain financial assistance from outside sources to help implement this Plan across a range of project sizes during the planning horizon.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	13. Identify and establish reliable funding sources to maintain, modernize and improve water infrastructure to ensure a high quality, resilient and reliable water supply.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	14. Increase the use of recycled water in the Region while maintaining compliance with the Mojave Basin Area Judgment.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	4. Address the State policy goal of reducing reliance on the Delta by meeting water demands with alternative sources of supply during times when State Water Project (SWP) supplies are reduced or unavailable due to droughts, outages, environmental and regulatory restrictions, or other reasons.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	5. Optimize the use of the Region's water related assets to maximize available supplies to meet projected demands while mitigating against risks. Water related assets to be optimized include financial resources, groundwater storage programs, available imported water supplies, transfer and exchange opportunities, available physical infrastructure, and management policies.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	12. Improve public awareness of water supply, conservation, water quality, and environmental stewardship challenges and opportunities throughout the planning horizon.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	6. Prevent land subsidence throughout the Region.

#### Statewide Priorities

- |                                     |  |
|-------------------------------------|--|
| <input checked="" type="checkbox"/> | Drought Preparedness   |
| <input checked="" type="checkbox"/> | Use and Reuse Water More Efficiently   |
| <input checked="" type="checkbox"/> | Climate Change Response Actions (Adaptation to Climate Change, Reduction of Greenhouse Gas Emissions, Reduce Energy Consumption) |
| <input type="checkbox"/>            | Expand Environmental Stewardship   |

- ☐ Practice Integrated Flood Management
- ☒ Protect Surface and Groundwater Quality
- ☐ Improve Tribal Water and Natural Resources
- ☒ Ensure Equitable Distribution of Benefits

#### Program Preferences

- ☒ Include Regional Projects or Programs
- ☒ Effectively Integrate Water Management Programs and Projects within a Hydrologic Region Identified in the CA
- ☒ Water Plan; the RWQCB Region or Subdivision; or Other Region or Sub-Region Specifically Identified by DWR
- ☒ Effectively Resolve Significant Water-Related Conflicts within or between Regions
- ☐ Contribute to Attainment of One or More of the Objectives of the CALFED Bay-Delta Program
- ☒ Address Critical Water Supply or Water Quality Needs of Disadvantaged Communities within the Region
- ☒ Effectively Integrate Water Management with Land Use Planning

#### CA Water Plan - Resource Management Strategies
